

The following list, might help you to find out what year belongs to a machine-number of a machine you have bought allready or you are going to buy right now.

Hope you understand that nobody can list neither all machine-numbers nor all machine-types, but the following could be a little help and a guiding line for you: you just have to interprete your number, when you cannot find it in this list, with the listed numbers before and behind to find out the aproximate year ...

=====
-10- POLAR NUMBERS
=====

Polar numbers have a very easy code and you can identify any year of any Polar immediately by placing 19 before the number and add 30 to the first

2 digits of the machine-nr (this may not be valid at last one of a year) :

NR 6032299 => 1960 + 30 = 1990

Nr 7031685 => 1970 + 30 = 2000

At the very old types of 1971 and older, the year is marked together with

the number: 71/4219 is year 1971
